

## Terms Of Sale & Shipment

1. Minimum Billing:
  - Temperature Sensors \$250.00
  - Temperature Controls \$500.00
2. Quotations are in accordance with our interpretation of specifications and/or drawings.
3. Prices are subject to change without notice. Price information published in our catalogs or on our price lists is not a definite quotation or an offer to sell. Such general price information should be confirmed before relying on the same. Our prices include the cost of standard domestic packaging. Any deviation from standard packing (domestic or export) including U.S. Government sealed packing necessitates extra charges. To determine the extra charges consult the factory.
4. Terms are Net 30 days from date of invoice F.O.B. Trenton New Jersey unless otherwise specified on our sales order.
5. Any present or future sales, use, occupation, or other tax, which may be imposed on this transaction, is not included in the price and shall be paid by the Purchaser.
6. We will make every effort to maintain quoted delivery, but because of many factors beyond our reasonable control, delivery schedules are not guaranteed. We will not accept any liability for penalties or damages for delayed shipments.
7. Title to purchase passes to the consignee upon our delivery thereof to the carrier at the shipping point.
8. After acceptance by us, orders cannot be cancelled without our consent and then only on terms which compensate us for any costs applicable to the cancelled order.
9. Permission must be obtained from us, or our authorized representative, before goods are returned to us. Goods returned to us will not be accepted unless bearing a Return Goods Order Number, issued by the Home Office of Quantem Corporation. If the return of goods is made necessary through any fault of ours, and permission is granted for its return, we will give full credit, including all transportation charges. If return is due to no fault of ours, and permission has been granted, a minimum service charge of 20% of the net price will be made provided the controllers or sensors are in new and saleable condition.
10. All stenographic, clerical, or other errors are subject to correction.
11. Quantem Corporation products are warranted against defective material and workmanship for a period of one year from date of shipment. This warranty is limited to the repair or replacement of Quantem products at our factory. Under no circumstances does Quantem's responsibility extend to apparatus other than its own manufacture. All Quantem products are factory-calibrated and adjusted. Unauthorized tampering other than remote potentiometer or trimmer potentiometer voids the warranty. This warranty applies only to products purchased directly from Quantem Corporation.
12. One reschedule (push-out) will be allowed per order for no more than 30 days from original ship date.
13. Requests for push-outs within 60 days of the committed ship date will not be allowed.
14. Scheduled pull-ins will be allowed if product is available.
15. All blanket orders must be consumed within 12 months of the order date.
